

Ian Anderson House, Ontario's first in-resident cancer hospice offers, without charge, quality end-of-life palliative care in a home-like setting to individuals diagnosed with terminal cancer and a limited life expectancy.

Ian Anderson House was founded in memory of Ian Anderson who died of cancer on Nov. 15th, 1990. Ian died at home, which was his and Margaret's wish, but not every family is able, for whatever reason, to provide the necessary round-the-clock care in their own homes. Since opening in 1997 Ian Anderson House has provided care to more than 1100 residents and the necessary support to their families during a most difficult time.

We would like to thank everyone for their participation and support of this very worthwhile charity. We hope that you enjoyed your day and we look forward to seeing the benefits of a community who came together in support of a local charity.

All of us at The Stout Monk would like to thank you for your past patronage. We hope that we have served you well and that you will continue to come out and enjoy our hospitality.
